

Malta - List of Border Control Posts

Regulation (EU) 2017/625 establishes the framework for the performance of official controls and other official activities on plants, plant products and other relevant objects entering the European Union from third countries to verify compliance with Union agri-food chain legislation in order to protect plant health. It provides that official controls are to be performed on consignments of goods at the border control post of first arrival into the Union. In relation to this, Malta has two officially designated Border Control Posts in its territory, the details of which are laid down in the following table:

Border Control Post	Contact Details	TRACES code	Type of Transport	Inspection Centres	Categories of animals and goods and specification	Additional specifications regarding the scope of the designation
